

# Amen

Jolie Holland

Amen-there's a ring around the  
moon  
I'm going to fly all night down to see  
you

there's a road drifting through the  
mountains  
I'm gonna fly down that road  
till I get to where I'm going- Amen

there's a light inside my chest  
that switched on when we first met  
and it will not let me rest- Amen

and the silvery moon so fine  
and the air tastes like wine  
and the road slips and slides  
Amen

there's a road slipping through the  
mountains  
I'm gonna fly till I am there  
I'll put a kiss behind your ear-  
Amen
