

## It's U

Jon B.

I've been waiting so long  
I've been waiting so long girl  
I've been waiting so long  
I've been waiting so long girl  
So long  
So long girl  
I've been waiting too long

Shining through the darkness you turn my night to day (you turn  
my night to day)  
You light me like a lighter and make my fire blaze (and make my  
fire blaze)

Every little thing we do is just to prove to you how special yo  
u are how special you are.  
This is to show and prove to you, you know what you do, you kno  
w who you are  
Girl yous a star

(2x):  
Girl it's you  
It's you, It's you, It's you  
Girl it's you  
It's you, It's you

Keep aware myself alarm reserve my special place (reserve my sp  
ecial place)  
To let me get to love you fill out that empty space  
Oooo yeah

Every little thing we do is just to prove to you how special yo  
u are how special you are.  
This is to show and prove to you, you know what you do, you kno  
w who you are  
Girl yous a star

(2x):  
Girl it's you  
It's you, It's you, It's you  
Girl it's you  
It's you, It's you

Shine your light on me baby  
Shine it bright  
Shine it through the day and shine it through the night

(4x):  
Girl it's you

It's you, It's you, It's you  
Girl it's you  
It's you, It's you
