

# Only One

Jon B.

Picture me knockin on the door  
You haven't dressed yet  
Back in the days, yeah, baby when we just met  
Picture us takin no time to talk  
Go straight to kissin (mmm)  
I got you head over heels  
And you grantin my wishes (ohh)

Just imagine cause reality is so different and deep  
How you make me wait  
Anticipate all this love you'd give to me  
From the very first glance  
I was on that ass  
Wanting that right in front of me.  
So you always feel the point sinks  
In the reasons why  
You can always count on me.

Call my name  
When you need me  
You know why there's only one me  
Who can satisfy  
Beginning until the end  
You already know  
There's only one me  
What nobody else  
Can do you like  
You know I can be  
Your everything you need  
You always wait so patiently  
U know why there's only one me

One, uh uh uh, uh uh uh one  
You know why there's only one me  
One, uh uh uh, uh uh uh one  
There's only one

You feel the real talk when I speak into the core  
Wanna make you sing from inside  
I wanna make you want me so much more (ooh)  
Wanna put you on top of the world  
Turn a glacier to a waterfall (fall)  
Wanna warm you up like a fireplace  
Your silhouette on the wall (woo)

Not just imagining  
Cause reality is I creep into your dreams with you  
Let it marinate, you anticipate all this  
Love your gon receive  
From the very first glance  
I was on that ass  
Want that right in front of me  
I wanna get to always make the point crystal clear  
The reason's why  
It's better than good what u get from me

Call my name when you need me

You know why there's only one me  
Who can satisfy beginning until the end  
You already know there's only one me  
What nobody else can do you like  
You know I can be your everything you need  
You always wait so patiently  
U know why there's only one me

Yeah, oh oh oh  
You know why there's only one me  
(Baby)  
You know (only one us, baby)  
Call my name when you need me  
(Oh, when you need me, I'm gonna be right there for you)  
You know why there's only me  
Who can satisfy beginning until the end  
You already know there's only one me  
(When you need a dose of me, baby)  
What nobody else can do you like  
You know I can be your everything you need  
You always wait so patiently  
You know why there's only me

Yeah yeah  
I'm a show you why  
There's only one me  
Mmm, I'm a show you why  
There's only one  
(There; s only one me)
