

Simple Melody

Jon B.

Simple melody baby,
Come and swing your love to me, baby
Simple melody lady,
Come and swing your love to me, honey
You know there's somethin' that's come over me
You know you got somethin' that set me free
You know there's somethin' that is on my mind
All the time, all the time

Life is just a party
Ya know ya in the right
You're the life of the party
It's alright, it's alright
Sparkles on your body
You know you're in the right
You're the life of the party
It's you night, it's your night

Simple melody baby,
Come and swing your love to me, baby
Simple melody lady,
Come and swing your love to me, honey
You know there's somethin' between me and you
Tell me your wish and I could grant it to you
Give me a reason any case I swear
Name a place anywhere, I'll take you there

Life is just a party
Ya know ya in the right
You're the life of the party
It's alright, it's alright
Sparkles on your body
You know you're in the right
You're the life of the party
It's you night, it's your night

Simple melody baby,
Come and swing your love to me, baby
Simple melody lady,
Come and swing your love to me, honey
Simple melody baby,
Come and swing your love to me, baby
Simple melody lady,
Come and swing your love to me, honey
