

He's A Great God

Jonathan Nelson

Hey, hey, hey
Everybody in the room say
(He really is a great God)
Hey, hey, hey
Everybody in the room say
(He really is a great God)
(He really is a great God)
Get a little louder, sing it y'all
(He really is a great God)
(He really is a great God) I can't hear ya, lift it up, sing
(He really is a great God)
(He really is a great God)
Shout it real loud, try and sing
(He really is a great God)
(He really is a great God)
Can you do me a favor?
Listen
If you really believe
That he is a (great God)
Then your body language oughta respond in kind
Tell your neighbor, say "Neighbor, I love you"
(Neighbor, I love you)
Now can you scoot over just a little bit?
'Cause I'm about to dance on the Devil's head this mornin'
And when you say "He really is a great God"
I want you to just go crazy
Do whatever you gotta do
Y'all ready to think about how good he is?
Y'all liftin' those hands?
He really is a great
(He really is a great God)
(He really is a great God) Everybody in the room say
(He really is a great God)
(He really is a great God) Y'all testify, y'all give it up
(He really is a great God)
(He really is a great God)
Let 'em testify, y'all testify
(He really is a great God)
(He really is a great God)
Y'all sing it out there, sing it, sing it
(He really is a great God)
(He really is a great God)
You oughta sing it real good
(He really is a great God)
(He really is a great God)
He really is, ain't he y'all?
(He really is a great God)
(He really is a great God)
One more time
(He really is a great God)
(He really is a great God)
That's who you are
Ladies, come on
(That's who you are)
That's who you are
(That's who you are)
That's who you are

(That's who you are)
A great God
(That's who you are)
A mighty God
(That's who you are)
A savior God
(That's who you are)
A healing God
(That's who you are)
A reckless God
(That's who you are)
That's who you are
(That's who you are)
That's who you are
(That's who you are)
That's who you are
(That's who you are)
That's who you are
(That's who you are)
My hero
(That's who you are)
Yahweh, maker
(That's who you are)
Yahweh, maker
(That's who you are)
Yahweh, maker
(That's who you are)
You're my hero
(That's who you are)
You're my hero
(That's who you are)
That's who you are
(That's who you are)
That's who you are
(That's who you are)
You wanna sing?
(That's who you are)
You wanna testify?
(That's who you are)
That's who you are
(That's who you are)
Can you lift up your voice? Everybody, lift up your body
