

# That Little Sleeper Car

Jonathan Richman

There at the stoplight was a little sleeper car  
With power that you can't see  
Painted drab, but then that's the way they are  
But that little sleeper car's not foolin' me.  
My friends with guts tell me that I'm nuts,  
But I've seen all I need to see.  
That little sleeper car might fool the world  
But that little sleeper car's not foolin' me.

Now my friends who've been right in the past  
Told me that that car can't go too fast  
And of course at first glance right they are  
But that's because it's a sleeper car.  
It's lookin' bad, it's lookin' sad, but I've seen all I need t  
o see.  
That little sleeper car might fool the world  
But that little sleeper car's not foolin' me.

It's runnin' bad, it's lookin' sad, but I've seen all I need t  
o see.  
That little sleeper car might fool the world  
But that little sleeper car's not foolin' me.

They just see rot, they just see rust  
They just see a car that they just don't trust.  
But I'm here to tell the world at large  
This is one high-class little car.  
And now she's pulling away from the light,  
But I've seen all I need to see.  
That little sleeper might fool the world  
But that little sleeper car's not foolin' me.  
No, no...
