

Missing Your Love

Jonny Lang

You lay me down, whisper in my ear
Well, it may be my name you call
But it's his name I hear

You promised me through thick and thin
You told me you loved me, you told me a lie
'cause you love him

And I'm missin' your love every day
I'm missin' your love every way
Though your here with me,
I'm still missin' your love

And when we talk, you look into my eyes
Your talkin to me but baby I can see
He's on your mind

And I'm missin' your love every day
I'm missin' your love every way
Though your here with me, I'm still missin' your love
I reach out for you and you turn away
It takes all I can do to make it through the day
And I'm missin' your love And I'm missin' your love every day
I'm missin' your love every way
Though your here with me,
I'm still missin' your love
