

# Goodbyes

Jorja Smith

How could we know  
That there wouldn't be tomorrow  
No birds will sing  
But the bells will ring for you  
So far to go  
But you've already reached the light  
Your new beginning  
Chapters are written out for you  
Down here they're hurting  
From a broken heart  
Trying to figure out  
How this is real

'Cause you're never coming back down  
You belong to the stars in the clouds  
Goodbyes, good times  
And all we hear is all for you  
If you didn't say your goodbyes  
Don't worry love will bear it through  
'Cause you're never coming back down  
You belong to the stars in the clouds

How do we go  
If you're not moving with us  
Constantly dark  
Time will move in our favor  
They'll never know  
But they just keep on asking when  
We're down here hurting  
From our broken heart  
Trying to figure out  
How this is real

'Cause they're never coming back down  
They belong to the stars in the clouds  
Goodbyes, good times  
And all we hear is all for you  
If you didn't say your goodbyes  
Don't worry love will bear it through

I'm sorry that I never replied  
How was I to know this would be our last Goodbye  
We can't look at the world with tears in our eyes  
Don't cry don't cry, don't cry don't cry

Just think of all the good times you've left behind  
And all we hear is all for you  
If you didn't say your goodbyes  
Don't worry love will bear it through  
'Cause you're never coming back down  
You belong to the stars in the clouds
