

# Lonely Are The Brave

Jørn Lande

Once when the world was younger  
They would paint the sky  
On the canvas of light  
Naming stars in the night... yeah

Then someone saw the future  
In the eyes of a beast  
Burning secrets of time  
But the people were blind

They sailed across the ocean blue  
Tall ships racing to find something new  
Legends of the sea  
Going down in history

At the end of a rainbow  
No treasure was found  
We're killing magic with machines  
In this technical Breakdown

Chains of the universe  
Cosmic winds blow there  
Our silent vision of paradise  
It must be somewhere

In to the forest I start to run  
Away from the city and the neon sun  
Up to the mountain where I can be king  
A master of fire and the Lord of the sings

This is my road  
It's just rock and roll and there's one thing I know  
Lonely are the brave  
Lonely are the brave

Back when winter was colder  
They all praised the sun  
A million fires of light  
Under the moon so bright

But darkness was always closer  
Than the holy light  
And we've been crossing the edge  
Forever breaking promises

Spaceman came travelling  
On a ship from afar  
He brought visions of paradise  
But it lies on a distant star

This is my road  
I follow the dream and I want you to know  
Lonely are the brave  
Lonely are the brave

This is my road  
This is my road and I'm going home

Lonely are the brave  
Lonely are the brave... yeah  
I follow the dream as I carry the load  
It's called rock and roll  
ROck and roll  
It's just rock and roll  
Rock and roll  
This is just rock and roll
