

# Shadow People

Jørn Lande

Day is dying night is moving  
In the darkness evil looming  
Crawling anger feeling hollow  
Future city so cold with sorrow... yeah

Shameless leaders killing faster  
Sending legions of disaster  
No retreat no surrender  
Thunderpain we will remember

And the diamond is you true blue  
And the crystal is me  
Lost in the dark

Shadow people shadow land  
Desert danger there's blood on the sand  
Blindfolded no time to see  
Just another liar and the liar is me

Like a burning wind of fire  
Push the demon in your desire  
Cross religion you have the power  
Rock the nations complete your tower

Cause the diamond is you true blue  
And the crystal is me

Shadow people shadow land  
Desert danger there's blood on the sand  
Shadow people shadow land  
Desert danger there's blood on the sand  
Blindfolded no time to see... no  
Just another liar and it's haunting me  
Yeah it's haunting me
