

Sun's up, boots on, out the door  
Clockin' in, off again, ready for more  
Iced down, twelve-pack, chillin' in the back  
Windows rolled down, in my cowboy hat

Cranking old country on my radio  
Pit stop, pop a top, side on the road  
Get a little buzz going in my head  
Toss another can in my old truck bed

Give me that feel good, give me that high  
Rollin' on into a real good night  
I got a whole lot of good times on the way  
24/7, 365, just livin' up life 'til the day I die

Rolling on in' to the B.A.R.  
Good lookin', trouble gettin' out of her car  
Might get her number, might get a dance  
Damn sure gonna take that chance

Give me that feel good, give me that high  
Rollin' on into a real good night  
I got a whole lot of good times on the way  
24/7, 365, just livin' up life 'til the day I die

Someday I might have to slow down  
But right now I wanna throw down  
No need to worry 'bout me  
A rebel, young, wild, and free  
Be wild and free

Give me that feel good, give me that high  
Rollin' on into a real good night  
I got a whole lot of good times on the way  
24/7, 365, just livin' up life 'til the day I die  
24/7, 365, just livin' up life 'til the day I die

24/7, 365, just livin' up life 'til the day I die
