

Dance with You All Night Long

Josh Abbott Band

Your hair is perfect I swear
And your eyes are as bright as the sun
Spinning around you turn me upside down
In this moment I feel your love

And I can dance with you all night long
I could dance with you all night long
Your body touches mine and it turns me on
I could dance with you all night long

Your dress is heaven's sweet kiss
As I watch it fall to the floor
Laying you down you put me on the clouds
In this moment I feel your love

And I can dance with you all night long
I could dance with you all night long
Your body touches mine and it turns me on
I could dance with you all night long
I could dance with you all night long
