

Kisses We Steal

Josh Abbott Band

It's the way we slip away from the party
It's the thrill we get from sneaking around
It's that smile of yours that's just a little naughty
Anticipating what's about to go down

It's the kisses we steal, thoughts we reveal
Around the corner just out of sight
Whisper real close cause I wanna know
What you got in mind for later tonight
It's the kisses we steal
Say goodbye to the secret fever
Kisses we steal make me want you so much deeper
Kisses we steal

It's feeling your legs through the cotton
Tracing the curve of your hips
Knowing exactly what you want
The way you bite your lip

Before the kisses we steal, thoughts we reveal
Around the corner just out of sight
Whisper real close cause I will know
What you got in mind for later tonight
It's the kisses we steal
Say goodbye to the secret fever
The kisses we steal make me want you so much deeper

When we're alone on the road, can't wait to get home
Pull over kind of passion that keeps us strong

The kisses we steal
Say goodbye to the secret fever
The kisses we steal make me want you so much deeper
The kisses we steal
Oh, the kisses we steal
Oh, the kisses we steal
