

# The Night Is Ours

Josh Abbott Band

Here's to you and a good night too  
Have you heard from anybody, are they getting here soon?  
The truck's loaded, and the fire is goin'  
I open a cold one, and it sure is flowin'

It won't be long until the sun goes down

And it's forgotten lyrics, untuned guitars  
Sitting around a campfire, somebody in your arms  
Staying up way too late, under the good Lord's stars  
Life is good, love is great, friends are there  
And the night is ours

Hey man, tell that story again  
The one we've heard nine times but we don't mind ten  
A little later we can pick on a tune  
Just a-singin' as loud as we want to the moon

It won't be long until the sun comes up

And it's forgotten lyrics, untuned guitars  
Sitting around a campfire, somebody in your arms  
Staying up way too late, under the good Lord's stars  
Life is good, love is great, friends are there  
And the night is ours

We may not get the chance again  
You never know when the party ends

And it's forgotten lyrics, untuned guitars  
Sitting around a campfire, somebody special in your arms  
Staying up way too late, under the good Lord's stars  
Life is good, love is great, friends are there  
And the night is ours  
Life is good, love is great, friends are there  
And the night is ours
