

Where I Wanna Be

Josh Abbott Band

I'm a little bit of rolling stone
I'm a whole lotta tumbleweed
Yeah, I been to the Broken Spoke
Yeah, I smoked a little willy-weed
I'm just a headlight on the highway
With a Stetson and a dream
I took some wrong turns but from there I learned
It's where I wanna be

And if there's hell, I'm gonna raise it
If there's whiskey behind the bar, I'm gonna chase it
And if the band's got a bill
And my buddies are here with me
If the girls are pretty and the beer is cool
It's where I wanna be

I seen my share of blue lights
I've paddled up Shit's Creek
I went all cowboy
Kickin' ass one night down on Sixth Street

And if there's hell, I'm gonna raise it
If there's whiskey behind the bar, I'm gonna chase it
And if the band's got a bill
And my buddies are here with me
If the girls are pretty and the beer is cool
It's where I wanna be

Turn that banjo up

And if there's hell, I'm gonna raise it
If there's whiskey behind the bar, I'm gonna chase it
And if the band's got a bill
And my buddies are here with me
If the girls are pretty and the beer is cool
It's where I wanna be

If the girls are pretty and the beer is cool
It's where I wanna be
