

Testify

Josh Garrels

I used to steal from my father
Spit in the face of my mother
Sell drugs to my sisters and brothers
Looking out for me
Was the one thing that made me happy
Lord, I'm not happy no more
Now I've been doing same thing for so long
How can I change, I need a change of pace
This whole worlds got me confused
In this place that used to be my home now I've got no home
And I'm fully grown, standing all alone
I'm gonna reap just what I've sown

Oh Lord I need something in my life
I'm so tired of losing every fight
Oh Lord I need You in my life
Come on down and meet me here tonight
It's alright
In Your light

Me and You find
That we can bring these walls down together in time
Me and You find
That we can bring these walls down together in time

Now I'm making my way through the wasteland
Got nothing to hold but the Lord's hand
He gives me strength so I can stand
Through the fire, and through the rain
Through temptations, and the devils games, they're all the same
All I know is that I've been changed
By every little thing you do inside my life
Makes me a new man and I've got to thank you
From the bottom of my heart
Every little thing you do inside my life
Makes me a new man and I've got to thank you
Thank you Father once again, and again, and again

You and me find
That we can bring these walls down together in time
Me and You find
That we can bring these walls down together in time

I know that You'll be there
I know You will, in the sun or rain
I know that You'll be there
I know You will, in the sun or rain, oh
