

# Wait

Josh Garrels

First time looked in your eyes, girl I lost my mind  
Thinking you're the one, why'd I jump the gun  
I want you, just to smile, yeah it's true  
We could live so sweetly I could, spend my days with you  
I shouldn't love you, I don't know, but I do

Hold your breath for me now, I won't be long  
Hold that heart for me now, I'm coming home, now

Na, na, na...

Next time looked in your eyes, I break down and cried  
I almost lost the one, Lord what have I done  
I waited, all my lifetime, for you  
I am yours completely, lay down my life for you  
I always love you, Michelle, you know it's true

Hold your breath for me now, I won't be long  
Hold that heart for me now, I'm coming home  
Hold your breath for me now, I won't be long, oh yeah  
Hold that heart for me now, I'm coming home, now

Na, na, na...
