

## On the Water

Josh Ritter

Made a good run but I've run too far  
Felt the battle of jalopy in this beat-up car  
But I'm drawn to you honey like the sea to the fisherman's daughter  
It's just a short walk on the water

If you find yourself alone, if you run out of road  
If you get the way it gets when lightning strikes and then goes  
I'll be around, it don't matter what the others offer  
It's just a short walk on the water

I'm in love with you honey, you've got nothing to fear  
You're standing over there and I'm standing right here  
The choice is for you, I can't make it for you though I wanna

You and I've been lovers, honey, you and I are friends  
Been that way forever since I can't remember when  
Everything happens for a reason or at least, it oughta  
It's just a short walk on the water

I'm in love with you honey, you've got nothing to fear  
You're standing over there and I'm standing right here  
The choice is for you, I can't make it for you though I wanna

With the storm in your hair and the salt in your eyes in the cyclone  
And the cap of each wave like the first day that you fell in love  
And you're in between nothing but the thin air and the unknown  
On a night when enough couldn't possibly be enough

Everything is changing now, times are strange  
You know me honey like you now my name  
My heart is a silver fish on the line of your laughter  
It's just a short walk on the water

I'm in love with you honey, you've got nothing to fear  
You're standing over there and I'm standing right here  
The choice is for you, I can't make it for you though I wanna

Made a good run but I've run too far  
Felt the battle of jalopy in this beat-up car  
But I'm drawn to you honey like the sea to the fisherman's daughter  
It's just a short walk on the water
