

Real Long Distance

Josh Ritter

You're a real mean mama
But you got a lotta time for me
And I know they ain't coming
To find your kinda love for free

It's a drag and a sigh and that's not all
It's this real long distance, it's the real long distance call

Telephone ringing mama
Please, don't you leave it alone
Don't leave no breaks in the line
It's the only thing that's tied to the home

It's a drag and a sigh and that's not all
It's this real long distance, it's a real long distance call

It's a drag and a sigh and that's not all
Calling real long distance, it's a real long distance call

This is real long distance, it's a real long distance call
Calling real long distance, it's a real long distance call
Calling real long distance, it's a real long distance call
