

Anywhere Your Love Goes

Joshua Radin

I've been alone
The time passes slow
Clock on the wall, its hands don't move me at all
Time passes slow

Memories fade, so much more to say
I guess I'll save it for another day
There you are
I wanna be there but it seems so far

Take me where the wind blows
Anywhere the sun shines
Anywhere your love goes
You will find me

I picture you
You teach me to fly
You're gonna sing me like a lullaby
There you are
I wanna be there, but it seems so far

Take me where the wind blows
Anywhere the sun shines
Anywhere your love goes
You will find me

I see the morning as the darkness falls
I know there's more beyond the loneliness
I hear you call

Take me where the wind blows
Anywhere the sun shines
Anywhere your love goes
You will find me

Anywhere the wind blows
Anywhere the sun shines
Anywhere your love goes
You will find me
