

Let It Go

Joshua Radin

Put the top down, drive to the sea
Leave the city lights behind me
Let it go
Feel the sunshine on my face
Took some time but I found my place by letting go

You're gonna see me running, faster than before
This engine's humming, man she gonna give me something more
If I let it go

Let it go
I'm done moving slow
Let it go

Turn the radio up, to hear that sound
Sticks on the snare making me get down
Let it go

Those I know, who don't know me
Always telling me which way to be
I'm gonna let it go

You're gonna see me running, faster than before
This engine's humming, man she gonna give me something more
If I let it go

Let it go
I'm done moving slow
Let it go

Cause in the rear-view's only madness
I'm gonna save myself from Los Angeles
So tell everybody
You won't ever find me
I'm letting go

Let it go
I'm done moving slow
Let it go
