

Let Our Sun Shine Down

Joshua Radin

Lately I've been thinkin'
Without you I'm just a dreamer out at sea
So close to sinkin'
Miles from shore, it surely made a mess to me

But I'll be your sea
If you'll be my land
I'll crash my waves upon your sand
Can't tell that you're wind not again
It's opening my eyes and I say

Hey let our sunshine down
Now we wait and see
Let our sunshine down
Lalalala

Baby if you told me
I'd be wandering down this road again
I'd say you're crazy
Cause for so long we only call each other friends

But I'll be your sea
If you'll be my land
I'll crash my waves upon your sand
Can't tell that you're wind
Not again
It's opening my eyes and I say

Hey let your sunshine down
Now right away
So let our sunshine down
Take our food off the grains
Come and let our sunshine down
Lalalala

It's been 5 long years
Since I don't walk from that lonely dream
No if you're my dear
I know exactly where I'm supposed to be

So I say hey let our sunshine down
Now, right away
Let our sunshine down
Take our food off the grains
And let our sunshine down
Lalalala
