

Worlds Apart

Joshua Radin

You've been lying awake all night
Your head's been running around, it won't stop
But it's a wonderful light
I wish you could only see the things you've got
You'd see it's all right

Hold me close
I'll be there soon
Hold me in your heart
Hold me close, like I'm the sun to your moon
Though we were apart
Though we are worlds apart

So when you leave the sun for the snow
Crossing ocean tides
Know you will be safe there at home
Rest now, close your eyes

Hold me close, and I'll be there soon
Hold me in your heart
Hold me close, like I'm the sun to your moon
Though we were apart
Though we are worlds apart

I want you to dream in fields of flowers
And know that you're not alone
Soon come morning hours
The sweetest winds will blow

If you hold me close, I'll be there soon
Hold me in your heart
Hold me close, like I'm the sun to your moon
Though we were apart
Though we are worlds apart
Though we are worlds apart
