

I Wanna Make You Happy

Josie and the Pussycats

I wanna make you happy.
That's all I really want to do.
'Cause baby when I make you happy,
It makes me happy, too.

Look in my eyes, what do you see?
Reflections of you, lovin' me,
Like I love you.
Baby look in my eyes,
Don't you realize.

(well)
I just wanna make you happy.
That's all I really want to do.
'Cause baby when I'm makin' you happy,
It makes me happy too, (lovin' you).

Baby you've just got to believe that I love you.
Baby you've just got to believe that I love you.
Baby you've just got to believe that I love you.
Baby you've just got to believe that I love you.

'Cause I just wanna make you happy.
That's all I really want to do.
'Cause baby when I make you happy.
Don't you ever doubt it
'Cause I can't live without it.
Baby I'm in love with you.

'Cause I just wanna make you happy.
That's all I really want to do.
'Cause Baby when I make you happy,
It makes me happy too.

(oh)
I just wanna make you happy.
That's all I really wanna do.
'Cause Baby when I make you happy,
It makes me happy too.
