

I Need You

Jovanotti

Hey you honeydew
I can not sleep
I don' t know what
To do
I'm lookin' for a girl to spend the night
Makin' dirty things 'till the early light
And when you wake up in the morning and
You see I'm gone Check this out, cos' you're not alone
I love you, I'm waiting like
A dynamite Baby come to me
Cause I need you tonight I
Need you tonight I want you tonight
I love you I want you I need you tonight
Hey love how do you feel
When i talk to you I
Really feel so real Cos'
Your voice is a special sound
So please my honey please come around
Right down the club when I saw you last night
Your eyes were brown but they were
Shining bright You asked me that song , I
Told you yes I think
I'm in love baby, I must confess
I need you tonight...
Well baby you are so sweet
You make me dance like
A special beat I wanna
Dance with you, wanna make it right
I wanna do it all day and do it all night

Yes I know you're a child but I'm a child too
Take a ride baby I think I need you
Yes I know you're a child
But I'm a young boy too Let's take a ride
Baby, I think I need you
I need you tonight...
Hey you what you gonna do
You're always on the phone but you're
Not alone I got you, your mother
Your
Sister and your brother
Got the bills to pay gettin' bigger everyday
You are a son of a gun with no income
Just girls in your brain you're
Drivin' me insane I can't take no
More of all these chores Cause
The telephone I'm workin' for
Hallo! Hey you what are you doing now
Did you listen to me on the radio today
OK I've dedicated you a song baby
Bye bye
