

# It's All Good

Joy Williams

I wouldn't try to tell you  
Everything is perfect in my world  
I wouldn't try to kid you  
What you see is just an ordinary girl  
I'm not delusional  
No... 'cause I know what's real  
So there is no confusion when I say

It's All Good (It's All Good)  
Ask me to explain it  
And I could (and I could)  
I've got the love of my Lord  
and I should (and I should)  
Trust when I don't understand  
Cause even when it seems that it's all bad  
It's All Good

I wouldn't try to fool you  
I'll be open with this heart of mine  
I wouldn't try to trick you  
Cause I know you'd see right through me everytime  
I'm not invincible  
No... but my faith is real  
I'm hoping I'll convince you when I say

It's All Good (It's All Good)  
Ask me to explain it  
And I could (and I could)  
I've got the love of my Lord  
and I should (and I should)  
Trust when I don't understand  
Cause even when it seems that it's all bad  
It's All Good

So when my days are hardest I refuse  
To give up or give in instead I choose  
To live with joy that I can't lose  
So how can it be  
Anything... But good...
