

We Are

Joy Williams

First
This is your first step
Light
Is caught in your eyes
Heart beats
To the rhythm of the city streets
Can you feel it
Can you feel it

We are one
We are reaching out
We are one
Can't you hear the sound
We are now
And we're reaching for the sun
We are
we are
we are
One

Breathe
This beautiful world
Together
Moving in the same direction
It's happening
Every one connecting
Can you feel it
Can you feel it

We are one
We are reaching out
We are one
Can't you hear the sound
We are now
And we're reaching for the sun
We are
we are
we are
One

Everyone is every one of us
Everyone is every one of us
Everyone is every one of us

We are one
We are reaching out
We are one
Can't you hear the sound
We are now
And we're reaching for the sun
We are
we are
we are
One
