

We all have secret places  
We all seek information  
We are on the way  
We know eachother's faces  
We're all in automation  
How to communicate

What we don't retain, we get blown away  
We don't retain, we got blown away

Almost had it down (2x)

We all miss hearin' kisses  
We all brought our own visions  
We are on the way  
We question our existence  
The perk of our condition  
We do communicate

What we don't retain, we get blown away  
We don't retain, we got blown away

Almost had it down (2x)

Unretained, we get blown away (3x)
