

Growing Old

JRDN

I was lost and then you came around
You saw the better in me
I never found (No)
I need you to know
How much that meant to me
You never left me alone
And I was in too deep, that's why
I can't get older if you can't get over
That you're growing old with me
If you forgive me
I promise that I'll be everything you ever need

I believe that you were meant for me
So if you leave, you'll take the best of me
I need a good woman
Not one that's only been good
I need a real woman
You're the one that takes me there
You take me there

You got me cleaning my eye for you
Wish I could change up the past
Despite what we've been through
I just want to treat you
I can't imagine life living without you
I can't get older if you can't get over
That you're growing old with me
If you forgive me
I'll promise I'll be everything you ever need

So please don't leave
You make me a better man
Oh, yes you did
That's why
I can't get older if you can't get over
That you're growing old with me
If you forgive me
I promise that I'll be the man you need
I believe in you and me
I believe in you and me (Oh)
I believe in you and me (You and me, yeah)
I believe in you and me (You and me)
I was lost, and then you came around
You saw the better in me I never found (No)
