

# Hellrider

Judas Priest

Here they come  
These gods of steel  
Megatron  
Devouring what's concealed

Speed of Death  
Crossfired they stare  
Final breath  
From vapourizing glares

Raised to man oppressed  
Sign a persecution

Hellrider  
Roars through the night  
Hellrider  
Raised for the fight

All incensed  
To overthrow  
Strong defence  
With armaments they grow

By this quest  
Their fates renowned  
Put to rest  
Abominations crowned

Time to ram it down  
Judgement for the tyrant

Hellrider  
Roars through the night  
Hellrider  
Raised for the fight

Fight undying and eternal  
Wheels bring death and pain infernal  
Honour bound your strength repleted  
To no end they're undefeated

Hellrider Hellrider  
You fought their battle for them

Hellrider Hellrider  
You brought them through their despair

Hellrider Hellrider  
Your tempered steel relinquished

Hellrider Hellrider  
You slaught them all extinguished

Wrath of doom  
In killing fields  
They consume  
Their valiants never yield

Triumph to the gods  
Vanquished of enslavers

Hellrider  
Breaking their will  
Hellrider  
In for the kill

Hellrider Hellrider  
You fought their battle for them

Hellrider Hellrider  
You brought them through it all
