

Rocka Rolla

Judas Priest

Man eatin momma, steam driven hammer
Sorts the men out from the boys
Takes no messin', all in wrestlin'
Is one of her pride and joys

She a classy, flashy lassy
Imitation sapphire shine
Two faced liar, full of fire
But I know the flame is mine

Rocka rolla woman for a rocka rolla man
You can take her if you want her
If you think you can
Rocka rolla woman for a rocka rolla man
You can take her if you want her you can

She's a grip and choke ya
Heavy smoker
Wrong side of the law

Midnight shady
Good time lady
Heavy, ready show you what for

Barroom fighter
Ten pint a nighter
Definite ninety-nine

Diamond cluster
Knuckle duster
Feline on the borderline

Rocka rolla woman for a rocka rolla man
You can take her if you want her
If you think you can
Rocka rolla woman for a rocka rolla man
You can take her if you want her you can
