

Sleepwalking

Jughead's Revenge

Standing in the rain
You're mad at me again
Messages so clear
And I want out
Just like that
You think you know it
But that's not where I come from
And that's not where I'm at
Take your approval to someone who really cares
Because I'm too tired to deal and it's not really fair
Everybody's talking like they know what's going on
Your bad dream is lasting too long
Had me sleeping anywhere but my bed
Had me thinking that I'm better off dead
There's something going on with me
That you can't comprehend
There's something going on with us
And I just can't pretend
