

# Don't Bother Me

Juice Newton

When you fall in love  
You're gonna be surprised  
You're gonna lose your heart  
Before your very eyes  
You're gonna take the breaks  
You're gonna feel the aches  
You're gonna find out soon  
You're gonna cry to moon

When you hear love calling  
You'll say hey don't call on me  
When you see love coming  
You'll say hey don't bother me

Everybody makes mistakes  
You think you've learned a lot  
You think you're really smart  
You think you're pretty hot  
You're gonna learn to cry  
You're gonna hate yourslef  
You're gonna wanna die  
You're gonna cry for help

When you hear love calling  
You'll say hey don't call on me  
When you see love coming  
You'll say hey don't bother me

You really do some missing so damn wrong  
You never get the message  
You wanna know what is love  
Well you'd better wait

You're gonna feel the aches  
You're gonna wonder why  
Your heart is gonna break  
You gonna cry, cry, cry

When you hear love calling  
You'll say hey don't call on me  
When you see love coming  
You'll say hey don't bother me

When you see love coming  
You'll say hey hey don't bother me
