

So Many Ways

Juice Newton

You make my dull bright, you make my wrong right
You up my downside, so many ways
You're making me hope, you make my life roll
You know my love grows, so many ways

So many ways, so many days
Down the hall it's just you
So many times I've been unkind
But still I think you should know

You make my sun shine, you make my boats fly
You sign my hopes high in so many ways
You take away things, you cry and I'll break
You make my soul shake in so many ways

So many ways, so many days
Down the hall it's just you
So many times I've been unkind
But still I think you should know

So many ways, so many ways

You make my soul shake, you cry and I'll break
You make a way
You make my wrong right, you make my dull bright
You up my downside

So many ways, so many days
Down the hall it's just you
So many times I've been unkind
But still I think you should know

So many ways, so many days
