

# Until Tonight

Juice Newton

Until tonight, I was so full of plans and daydreams  
So sure I could make it by myself  
Until tonight, I was so certain of my own schemes  
One night with you put them all on a shelf

Until tonight when you wrapped your arms around me  
I never knew what love was all about  
Until tonight, knowing you'll be here beside me  
You let me in for love, don't ever let me out

Until tonight, my life was only stumbling blocks and prizes  
And trophies I could hang up on my wall

Until tonight when you wrapped your arms around me  
I never knew what love was all about  
Until tonight, knowing you'll be here and I won't be alone  
And you will stay, no more than I dream a way

Until tonight  
Until tonight...
