

# When Love Comes Around the Bend

Juice Newton

Sitting on a high and lonesome hill  
Praying someday I surely will  
Know when it's right and know when it's real  
When love comes around the bend

I went home with a ticket to ride  
I been holding it all inside  
But these arms are gonna open wide  
When love comes around the bend

When love comes around the bend again  
I'll be ready and waiting and willing by then  
Oh, no, I ain't gonna miss that train again  
When love comes around the bend

When I see smoke and hear the engines roar  
When my heart beats like never before  
I'll be ready just to climb aboard  
When love comes around the bend

And on that day I'm gonna let it roll  
Let that fire burn outta control  
Thank my stars and bless my soul  
When love comes around the bend

When love comes around the bend again  
I'll be ready and waiting and willing by then  
Oh, no, I ain't gonna miss that train again  
When love comes around the bend

When love comes around the bend  
When love comes around the bend  
When love comes around the bend  
I'll be ready and waiting and willing by then, by then  
Oh, no, I ain't gonna miss that train again  
When love comes around the bend

When love comes around the bend  
When love comes around the bend  
When love comes around the bend
