Hold It In

Jukebox the Ghost

Jump into that water and see for yourself Take a deep breath and hold it in Hold it in She's got a secret And she wants to tell But I made a promise to hold it in Hold it in Baby, I'm in love And it's not in to tell Only thing that I can do is hold it in Hold it in Was told that I'm a man now And that I'm not allowed to cry Only thing that I can do is hold it in Hold it in, ha! Life is Oh my god, if I tell him he'll tell her And then she will know I like her Good grief, I don't think that I can take this heartbreak Any Longer I will not hold it in Ooh Couple with a baby and it's no secret why Neither one was able to hold it in Hold it in Kids in the streets, yeah they're all gettin' high Everybody's screaming hold it in, Hold it in! Life is Oh my god, if I tell him he'll tell her And then she will know I like her Good grief, I don't think that I can take this heartbreak Any longer I will not hold it in Ooh If there's a God, he's embarrassed And it's no secret why: Only thing that he can do is hold it in Hold it in So I printed him a letter to be sent out to sea I'm looking for a bottle to hold it in, Hold it in, ha! Life is Oh my god, if I tell him he'll tell her And then she will know I like her Good grief, I don't think that I can take this heartbreak Any Longer I will not hold it in
