No butterflies no butterfingers No "ah me" that lingers On and on when you are gone No last dance from the lake swan No string quartet playing in my head No sweet Juliet No thunder bolt from up above Just good old plain old concrete love Good old plain old concrete love No jelly legs no trembling weak knees No belly knots in me I can eat and I can sleep No twisted tongue that can't speak No lunar walk no floating cloud talk No ten out of ten to report No thunderbolt from up above

You snuck up on me You waited patiently You snuck up on me

You snuck up on me You waited patiently You snuck up on me

Won't you come
Won't you come over darling
Won't you come
''cause I want some
Bring it on bring it on
Over
Concrete love
