

Used to be like that, like that  
And this was what I lacked  
Then this came around, around  
And that went out of sight

Control, control, control  
Control, control, control

Was that it or is this it or  
Is there else or more?  
Haven't really checked there out yet  
God, there's so much to explore

Control, control, control  
Control, control, control

Said I never gonna leave my house  
No, no

Every now, all this and thats  
Are only it for then  
Until finally this is it  
And all nows have been spent

Control, control, control  
Control, control, control

Control...  
Never leave my house
