

# Infinity Halt

Julia Marcell

The world's upside down  
We've never been this far far far far  
Fire to fuel  
And listen to the wheels grind the tar

Oh my love  
The clocks go slower  
The faster we run run run

We just need  
A little moment  
So shoot like a gun gun gun

It's gonna be a long drive  
Turn up the stereo  
It's gonna be a long drive  
Turn up the stereo

Hold me close, never let me go

Hold me close, never let me go  
Honey let's go light speed  
Until infinity halt

All at once  
And not a single moment to spare  
Swipe through the timeline  
The world is standing still  
We've everywhere

Oh my love  
The clocks go slower  
The faster we run run run

If forever  
Is a nightmare of a concept  
I know we can make it fun  
Credits
