

Lost My Luck

Julia Marcell

I lost all my luck with you my princess
Keep your love away, save it for somebody else
I know you don't have much and what you have took long to make
I lost all my luck but please feel free to take

Who can shake you up and make you see?
Won't you come and turn yourself to me?
Won't you come and turn to me now?
Wouldn't you come and turn to me now?

Who can shake you up and make you see?
Won't you come and turn yourself to me?
Won't you come and never turn your back?
Come on my love, have I lost my luck?

Who knows what you have, what is there to unfold?
But I will hold your hand when you give me your hand to hold
You do what you plan, you can always find me here
I'll do what I can, do what I can my dear

Who can shake you up and make you see?
Won't you come and turn yourself to me?
Won't you come and turn to me now?
Wouldn't you come and turn to me now?

Who can shake you up and make you see?
Won't you come and turn yourself to me?
Won't you come and never turn your back?
Come on my love, have I lost my luck?
