Summer nights and I can't stop thinking about you  
Feeling like I can't sleep, I'm nothing without you  
Was it just me wanting to keep, to keep it all?  
To keep it all

You were mine  
Knees weak, I was all about it  
Dreaming wild keeps me feeling like it  
I called your name, was it too late?  
To want it all, to want you all

Why don't you stay for a while?  
Get high like this, just be free like this

Oh, I like it like this  
Do you like it like this?  
Oh, oh, oh, oh  
I want you to waste all my time  
Bite my kiss, just be free like this

Is it alright to wait up for you to come over?  
Half the time I don't even know if you'll show up  
I climbed the walls and then you called and it's okay  
Somehow okay

Why don't you stay for a while?  
Get high like this, just be free like this

Oh, I like it like this  
Do you like it like this?  
Oh, oh, oh, oh  
I want you to waste all my time  
Bite my kiss, just be free like this
