

# Let's Fight

Julie Roberts

It's been a while since you looked my way  
And even longer since you touched my face  
I'm sick and tired baby  
Of feeling like I live alone  
The only time you seem to give a damn  
Is when I piss you off or when I make you mad  
OK we'll just do it your way

[Chorus]  
Ooh let's fight tonight  
Put some fuel on the fire  
You can break my heart and that's alright  
You can make up for it later  
Don't hold back  
Be anything but nice  
And under the sheets we can apologize  
Ooh let's fight tonight

Tried wine and candles, fancy lingerie  
And sexy games but you don't wanna play  
I've tried dancing naked baby  
But you still don't notice me

[Chorus]  
Ooh let's fight tonight  
Put some fuel on the fire  
You can break my heart and that's alright  
You can make up for it later  
Don't hold back  
Be anything but nice  
And under the sheets we can apologize  
Ooh let's fight tonight

Are you confused babe  
Oh read my lips baby  
Come a little bit closer  
If you want some of this

[Chorus]  
Ooh let's fight tonight  
Put some fuel on the fire  
You can break my heart and that's alright  
You can make up for it later  
Don't hold back  
Be anything but nice  
And under the sheets we can apologize  
Ooh let's fight tonight

Ooh let's fight tonight
