

# California Noir

Julien-K

I've seen the looks and now it seems as if I'm losing control  
I need this shot right now I need you cause my back's to the wall  
I need the feeling in my bones, need to know where to go, oh oh  
I need this shot right now I need you cause my back's to the wall, the wall

As my California dreams  
Waste away in my precious teens  
Sunlit rays and possibility  
Summer beautiful and promising  
California dreams

Intoxicated by the light as we walk the streets of gold  
I need this shot right now I need it like never before  
I need to feel it in my bones, need to know where to go, oh oh  
I need this shot right now I need it like never before, before

My California dreams  
Waste away in my precious teens  
Sunlit rays and possibility  
Summer beautiful and promising  
California dreams

I want it, I need it, I know I can't be satisfied  
I want it, I need it, I know I can't be satisfied  
I want it, I need it, I know I can't be satisfied  
I need it, I want it, I know I can't be satisfied

California dreams  
Waste away in my precious teens  
Sunlit rays and possibility  
California dreams

California  
California  
California  
California
