

If I can find a way,  
I'll find a way to be with you  
If I can see the sky through the dark clouds  
well we'll make it through

If I can find a way, can find a way  
to be here with you,  
Just like castaways in the dark sea  
where we'll make it through

And there's nothing to see here  
Just need you to stay clear  
All the ... you'll find in tears

Can see the difference  
in colour's cadence  
The world's a virtue  
Can't turn against you

The world's a virtue  
Can't turn against you

If someone took from me  
the thing inside  
that sees the truth, the truth  
Plastics runaways in a folder ...  
that hold the proof, the proof

And nothing fades away

stays true, true

I can't hide the things  
from the ...  
that see me in you

And there's nothing to see here  
Just need you to stay clear  
All the wreckage you'll find in tears

Can see the difference  
in colour's cadence  
The world's a virtue  
Can't turn against you

In colour's cadence

Can see the difference

The world's a virtue

Can't turn against you
