

Eviscerate

Julien-K

I've been waiting all my life for this house
We've been working all our days for this house
I've been dreaming of the days and distant waves
I hear them calling my name but I won't let it go
We've been waiting all our lives for this house
You followed me (I followed you) with open eyes
Not the one to sympathize
Never want to compromise
Not the one to realize that you
Eviscerate eviscerate
Communicate then delay
Eviscerate eviscerate
Communicate then erase
We were searching for this place our whole lives
I've been running from this place my whole life
I'm striking out on my own a white picket blaze
A box calling my name and I can't let it go
I've been working all my days for this house
You pushed your way into my broken heart
Brushed it aside and you tore it apart
You eviscerate eviscerate
