

Bad Love

Juliet Simms

You give me roses
And I light them on fire
I say I love you
And you tell me I'm a liar

It's like an angel
Kissing the devil
And it's toxic but it works
Beautiful when it hurts

We're so good at
Bad love
The way you give me
Mad love
The way you work your magic
Addicted, gotta have it
We can never get enough
It's in our blood
We're so good at
Bad love

You get your kicks off being hard to please
I need to feel it
Touch so deep it almost murders me

You know I just can't help
Putting your heart through hell
Better or for worse
It's a curse

We're so good at
Bad love
The way you give me
Mad love
The way you work your magic
Addicted, gotta have it
We can never get enough
It's in our blood
We're so good at
Bad love

We are like wolves
In the dead of night
We scratch and claw
Holding on for life
We drink the poison
Until it's gone
Then awake in each other's arms
We're so good at bad love

We're so good at
Bad love
The way you give me
Mad love
The way you work your magic
Addicted, gotta have it
We can never get enough

It's in our blood
We're so good at
Bad love

(We're so good at, we're so good at)
(Bad love)
(We're so good at, we're so good at)
We're so good at bad love
(We're so good at, we're so good at)
(Bad love)
(We're so good at, we're so good at)
We're so good at bad love
