

Before it rains

Juliet Simms

Sunshine feels like a landslide
And the warm hands of a lover's touch
The birds start to fly for cover
And the children stop to look up

Time won't wait, can you feel it now?
Stuck in a daze, can you hear the sound?
Slipping away as it's coming down
I don't care if nothing is the same
Just kiss me before it rains

Your eyes are like a landslide
And my cold hands you love to touch
My heart starts to fly and flutter
And we don't stop to look up

Time won't wait, can you feel it now?
Stuck in a daze, can you hear the sound?
Slipping away as it's coming down
I don't care if nothing is the same
Just kiss me before it rains

Tell me you love me with the stars in your eyes
My God, I feel alive
You made your way through the darkness and into my dreams
I swear now I believe, I do believe

Time won't wait, can you feel it now?
(Can you feel it now?)
Stuck in a daze, can you hear the sound?
(Can you hear the sound?)
Slipping away as it's coming down
(oooh oooh oooh)
I don't care if nothing is the same
Just kiss me before it rains
(Kiss me)

I don't care if nothing is the same
Just kiss me before it rains
