

Words And Music

Julio Iglesias

These words, this music of mine
Is all I can send you tonight
Like words and music
I, I long to play on and on in your heart

These words are simple, it's true
My song only says I love you
My life without your love
Would be such a sad melody without you tonight

To live, to love, to laugh
Is all that my words and music ask
Of life, for us and forever

Your touch, your smile, your kiss
Make my words and music live
And we will live on forever more

My words need the music of you
My song needs your love to come true
My life without your love
Would be such a sad melody without you, it's true

To live, to love, to laugh
Is all that my words and music ask
Of life, for us and forever

Your touch, your smile, your kiss
Make my words and music live
And we will live on forever

So many songs of love I've sung
And now at last I can feel
Every word and note I sing for you
I believe, I believe

To live, to love, to laugh
Is all that my words and music ask
Of life, for us and forever

Your touch, your smile, your kiss
Make my words and music live
And we will live on forever

To live, to love, to laugh
