

# Stay The Night

Jully Black

Sometimes I wonder what to say  
Especially when you are here with me  
I'll admit I get this nervous feelin'  
I never wanted it to show what you do to me

So now I won't deny the truth today  
I really wanna show you what you mean to me  
Please lie here by my side  
Won't you spend the night

If I tell you once, I tell you twice  
Will you come and give it to me  
Will you come and give it to me right

If I tell you once, I tell you twice  
Will you come and do it to me  
Will you come and do it to me right

I want you to take this time to see  
That I'm more than just a pretty face  
I handle myself with class and grace  
And do you know how it feels to be  
Secretly in love with somebody that you've known for so long

So I can't deny the truth anymore  
I'm never gonna let you go  
Won't let you off my door  
Please lie here by my side  
Say you'll spend the night

If I tell you once, I tell you twice  
Will you come and give it to me  
Will you come and give it to me right

If I tell you once, I tell you twice  
Will you come and do it to me  
Will you come and do it to me right

you're walkin', you're talkin'  
You're eating, you're breathin'  
You do it so right, everything right  
You know I'm not dreaming, you are the true reason  
I'm living my life 'cause love is so right

If I tell you once, I tell you twice  
Will you come and give it to me  
Will you come and give it to me right

If I tell you once, I tell you twice  
Will you come and do it to me  
Will you come and do it to me right
